WHY DANCERS WEAR MAKEUP ON STAGE

Stage makeup enhances dancers facial features when they are on stage. Without makeup, a dancers facial features & expression will be very diminished to the audience in a large theatre setting.

Stage lighting is very bright, without makeup the bright shining lights will wash out a dancers face rather than enhancing their features.

We understand that for first time dance parents, makeup can be daunting!! Please view our helpful makeup tutorial videos at studioccdance.com which guide you through applying makeup. Please talk to your teachers if you have any concern.

Stage makeup is key to enhancing and highlighting your dancers features so you can enjoy their beautiful expression on the stage!
